## THE SECURITIES AND EXCHANGE COMMISSION

The Securities and Exchange Commission (SEC), formerly the Securities Regulatory Commission was created by the Securities Industry Law, 1993, (PNDCL 333), (the Law), as a statutory body corporate as part of Ghana's reforms towards a market economy. Its creation followed upon the establishment of a formalised securities market in Ghana with the opening of the Ghana Stock Exchange in 1990.

Previously, the functions of the Securities and Exchange Commission as prescribed by the Securities Industry Law, 1993, (PNDCL 333), were carried out by the Governor of the Bank of Ghana, as the sole securities regulator.

## MISSION STATEMENT

The Mission of the SEC is to promote the orderly growth and development of an efficient, fair and transparent securities market in which investors and the integrity of the market are protected through the proactive implementation of the Securities Laws. This involves ongoing supervision and regulation of the Ghanaian securities market, the education of market operators, policy makers as well as investors on their respective rights and obligations.

## CHAIRMAN'S STATEMENT

It is with great pleasure that I present to you the Year 2001 Annual Report and Accounts of the Securities and Exchange Commission.

The year 2001 saw the ushering in of a new Government whose objectives include wealth creation, the generation of employment opportunities, and the creation of a new era of "Golden Age of Business" with the private sector playing the key role in achieving these objectives.

#### THE STOCK MARKET PERFORMANCE

An analysis of the stock market showed that market capitalisation rose by 6.81% from c3655.04 in 2000 to c3904.03 in 2001. Measured by the GSE All–Share Index, the market rose by 11.42% in 2001.

Activities on the primary market improved with the listing of one corporate bond (the Home Finance Company Limited Series F Housbond) and additional listings for five companies. These additional listings were by way Bonus Share Issues, Employee Share Schemes and Dividend Conversion Options.

On the secondary market, activities increased with a total of 55.30 million shares traded, valued at ¢92.58 billion as against 30.72 million shares valued at ¢50.62 billion in 2000. This represents 82.30% and 80.01% increase respectively in value and volume.

#### **GOVERNMENT BOND MARKET**

The capital market experienced a boost in the year 2001, when the Government of Ghana Index Linked Bond (GGILB) issued by the Government of Ghana was introduced.

The first issue of the GGILB was in September 2001, and secondary trading on the Ghana Stock Exchange commenced on 28<sup>th</sup> December 2001.

4

The GGILB is a three-year inflation protected Government of Ghana bond, which will be repaid by government in 2004. Interest payments on the debt instrument will be paid semi-annually at a rate of (inflation + 6%).

#### MARKET REGULATION

The Commission continued to monitor the activities of market operators to ensure compliance with the securities laws. On site inspection visits to licenced operators were undertaken to ensure that internal control procedures and mechanisms for protecting the investor and financial accountability were being observed.

Off site inspection visits were also undertaken by reviewing the quarterly returns filed with the Commission by all the licenced stockbrokers.

#### UNIT TRUSTS AND MUTUAL FUNDS REGULATIONS

Regulations needed for the operations of unit trusts and mutual funds were passed into Law in December 2001. The passing into Law of this Legislative Instrument L.I.1695 will allow the Commission to go ahead with the licensing of prospective operators in the industry.

#### **PUBLIC EDUCATION**

The Commission embarked on a Public Education Programme aimed at educating market operators and the general public on the securities market and the role of the SEC in protecting investors and the integrity of the market. Activities included the development of two sets of brochures on the SEC and on Collective Investment Schemes.

A series of seminars / workshops were also held for market operators and the Subsidiary Legislation Committee of Parliament on the securities market and the operations of Collective Investment Schemes.

Staff of the Commission further presented papers on securities markets to a number of associations and organizations both locally and foreign.

5

#### TRAINING

Staff benefited from both domestic and foreign training programmes during the year 2001. Training programmes were designed to equip staff with in-depth knowledge about Securities Markets and the regulation and supervision of markets as well as investor awareness programs. The training programmes included short-term attachments, workshops, seminars and conferences on various aspects of securities regulation.

#### **INFORMATION TECHNOLOGY**

During the year, the Commission embarked on a comprehensive Information Technology plan, which was approved for funding under the Government of Ghana NBFI credit from the World Bank.

As part of the IT plan, the Commission has developed a Website: <u>www.secghana.org</u>. The website provides visitors with information ranging from the functions of the Commission to educational brochures among other things.

The achievements during the year 2001 are as a result of the dedication of the staff of the Commission, as well as the support received from the Ministry of Finance and other institutions in the industry. It is my belief that with the relatively stable economic environment currently being experienced in the country, the market will begin to see renewed interest that will translate into more listings and a higher level of activity in the stock market.

Professor G.K.A. Ofosu–Amaah (Chairman)

## COMPOSITION OF THE COMMISSION

The tenure of the previous Commission came to an end on the 9<sup>th</sup> of September 2001. As required under the Securities Industry Law, PNDCL333, the Board served for a term of three years.

Following this, His Excellency, the President of Ghana reconstituted a new Commission in consultation with the members of the Council of State as required by Law, which took effect from 17<sup>th</sup> January 2002 comprising of ten (10) members.

The reconstituted Commission comprise	ses the following:
---------------------------------------	--------------------

Professor G.K.A. Ofosu –Amaah	- Chairman
Dr. Charles Asembri	- Director General
Ms. Eudora Quartey	- Deputy Director General
Dr. Nii K. Sowa	- Member
Ms. Elsie Addo	- Member
Mrs. Amma Gaisie	- Member (Rep. of Registrar General's Dept.)
Mr. Francis Badasu	- Member (Rep. of Bank of Ghana)
Mr. K.B. Oku-Afari	- Member (Rep. Ministry of Finance)
Mrs. Dorothy Akaba	- Member
Mr. P.K. Buabeng	- Member

## ECONOMIC REVIEW 2001

While Ghana's most recent economic programmes have been adversely impacted by external forces, the government has adopted a policy to reduce poverty and corruption, accelerate agricultural development and encourage higher value-added processing of agricultural and mineral commodities.

The government has also promoted the expansion of several non-traditional exports including cotton, cashews, tuna, handicrafts and textiles. Part of the government's strategy to help improve the country's economic situation included reducing government expenditures, overhauling revenue collection, instituting anti-corruption measures, and continuing the privatization of state enterprises.

In March 2001, the government removed subsidies on petroleum products. The action resulted in a 64.3% increase in fuel prices. The prices of utility services (electricity and water) were also raised.

Also in March 2001, Ghana applied for debt relief under the IMF/World Bank debt reduction program for highly indebted poor countries (HIPC).

### OVERALL GROWTH

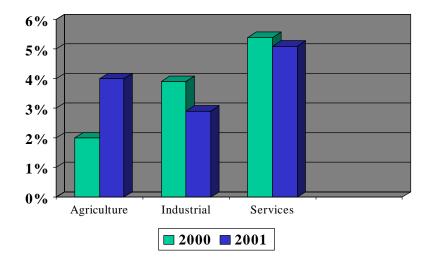

The country's Gross Domestic Product (GDP) for 2001 recorded an overall growth rate of 4.2% exceeding the target set for 2001 by 0.2% points and the growth rate for 2000 by 0.5% points.

INDICATORS	2001	2000
End of Year Inflation	21.3	40.5
Inflation Target%	25	12.5
Cedi / Dollar Exchange (¢)	7,300	6886.8
Real GDP Growth %	4.2	3.7
Targeted GDP Growth %	4.0	5.0

#### SECTOR PERFORMANCE

SECTOR	2001	2000
Agricultural	4.0%	2.0%
Industrial	2.9%	3.9%
Services	5.1%	5.4%

The Agricultural sector experienced strong growth of 4% compared to 2% for the year 2000. The strong growth in this sector was accounted for principally by the crops and livestock sub sector. There were however slowdowns in both the industrial sector and the services sector with growth rate declining by 1% point in the industrial sector and 0.3% points in the services sector.

#### **SECTOR PERFORMANCE (2000/2001)**

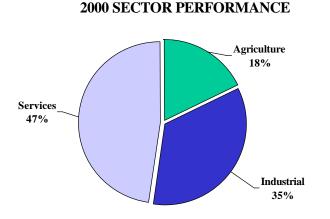

#### INFLATION

The Government in the year 2001 adopted a policy of moving away from the Central Bank financing of its deficits towards a non – bank financing option. This policy, together with the relative stability of the cedi and the strong performance of the agricultural sector contributed to the fall in inflation rates.

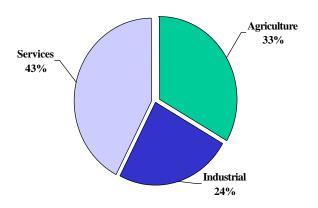

Year-end inflation rate fell to 21.3% in 2001 as against 40.5% at year-end 2000, outperforming the target of 25% set for the year.

#### EXCHANGE RATE

Although the cedi continued to depreciate against the major currencies in the inter bank market, the exchange rate in cedis was relatively stable as compared to the year 2000. The cedi to the US dollar exchange rate increased from ¢7,049.73 at the end of December 2000 to ¢7,312.24 at the end of December 2001 indicating a depreciation of 3.7% for the year as compared to a depreciation of 49.5% for the year 2000.

## **OPERATIONAL REVIEW**

### MARKET SURVEILLANCE

#### **On Site Inspection Visits**

In line with the Commission's fundamental obligation to "ensure orderly, fair and equitable dealings in securities", Market Surveillance undertook on site inspection visits to the under listed firms to assure itself not only of the existence of internal control procedures and mechanisms for protecting the investor and financial accountability, but that these controls and mechanisms have been operational throughout the review period.

- Ecobank Stockbrokers Ltd
- Merban Stockbrokers Ltd
- New World Investments Ltd
- First Atlantic Brokers Ltd
- Gold Coat Securities Ltd
- CDH Securities Ltd
- Sterling Securities Ltd
- NTHC Ltd
- Strategic African Securities Ltd

These inspection visits were followed up by verification visits to ensure that agreed corrective measures have been implemented as indicated in responses by the above firms to management letters issued by the SEC on the inspection visits.

#### **Off Site Inspections**

As part of its off site inspections, the Commission reviewed the quarterly returns filed with the Commission by all the licenced stockbrokers. Where the Commission found any problems with returns, this was communicated to the companies involved and the necessary corrective measures were taken to rectify any deficiencies detected.

### INFORMATION TECHNOLOGY (IT) PLAN

In line with the Commission's aim to be part of the evolving world of Information Technology (IT), the Commission put together an IT Plan, which was approved for funding under the Government of Ghana NBFI credit from the World Bank. The objectives of the I. T. Plan were as follows:

- a) To put in place a functional internal communications network LAN to facilitate an internal mailing system and information sharing within the Commission.
- b) To establish a broadband Internet connectivity for all staff to assist in the performance of their duties.
- c) To have an Intranet/database structure established with the Stock Exchange and all licensed brokers for data sharing and electronic surveillance activities.
- d) To put in place appropriate software to support in-house functions of the Commission such as accounting, human resource and Microsoft office suites.
- e) To have relevant IT training for all staff in the handling of the automated system to be put in place.

Financing under the Project for the Commission's IT Plan covered payment for the supply, installation, networking of computer hardware and software for the Management Information System (MIS) of the Commission.

The implementation of the IT plan, which started on the 14th of August 2001, is expected to be complete by June 2002. The implementation process is in 3 Lots.

The first component was the supply and installation of computer hardware and network / data communication which was to put in place a functional internal communications network (Local Area Network – LAN) to facilitate an internal mailing system and information sharing within the Commission.

- The second component deals with an intranet development and installation which seek to establish a broadband Internet connectivity for all staff to assist in the performance of their duties and also to put in place an Intranet/database structure established with the Stock Exchange and all licensed brokers for data sharing and electronic surveillance activities.
- The third component deals with implementation of computer software and application development. This component seeks to put in place appropriate software(s) to support in-house functions of the Commission such as accounting, human resource and Microsoft office suites and also to give relevant IT training for all staff in the handling of this automated system to be put in place

As part of the Information Technology (IT) programme, the Commission has now established a Website: <u>www.secghana.org</u>. The website provides visitors with information ranging from the functions of the Commission to educational brochures among other things.

### WORKSHOPS FOR PARLIAMENTARIANS AND MARKET OPERATORS

The Commission held a series of workshops during the year under review for members of the Subsidiary Legislation Committee of Parliament and market operators. Workshops held include:

- A three (3) day workshop for market operators to review the draft Unit Trust and Mutual Fund Regulations. The Commission had earlier on sent the Regulations to industry participants for their comments and inputs. Comments received from the industry on the Regulations were discussed at the workshop.
- A one-day workshop for the Subsidiary Legislation Committee of Parliament on the concept of collective investment schemes in Ghana and the need for the Regulations on Unit Trusts and Mutual Funds.

### PAPERS PRESENTED BY STAFF OF THE COMMISSION

Papers presented by staff of the Commission as part of its educational activities of the Securities market as well as the work of the Commission in the year under review included:

TOPIC	GROUP PRESENTED TO
Regulating Capital Markets in Ghana	Executive MBA Class at the School of
	Administration, Legon, Ghana

Investing in the Capital Market, (The	Members of the Accra Premier Lions Club
role of the SEC)	

### TRAINING

Technical training, both domestic and foreign, formed part of the staff advancement program of the Commission for the year 2001. Training programs were on matters relating to Securities Markets and the regulation and supervision of markets as well as investor awareness programs. In all eight (8) members of staff benefited from these training programs.

Some of the foreign training programs staff of the Commission benefited from includes:

- A workshop and an internship program organized by the International Institute for Securities Market Development, US SEC;
- Securities Market Development and Operation held in Kampala, Uganda;
- Training Program and attachment in Unit Trusts and Mutual Funds at J. Williamson Associates and Cadogan Financials in the United Kingdom;
- Emerging Markets Program organized by the Securities Commission, Malaysia;
- Enforcement and market oversight workshop in Washington DC organized by the US SEC;
- ✤ 3<sup>rd</sup> Compaq Forum in the Netherlands;
- Risk and Regulation in the United Kingdom organized by Euromoney Training;
- Regional workshop on Supervision of Capital Market Institutions held in Nigeria;
- Techniques for mergers and acquisitions organized by Euromoney Training, United Kingdom.

Hands-on training in Pastel (an accounting software) in line with the automation of the accounting processes and systems of the Commission.

As part of the local training, staff of the Commission benefited from:

- A course on Finance for Legal Professionals organized by the SEM Financial Training Center;
- A course on Mergers and Acquisitions organized by the SEM Financial Training Center;
- ✤ A course on the use of the Pastel (an accounting) software.

### INVESTOR PROTECTION

The SEC has high regard for investor protection. Therefore, the disclosure of information is very crucial for the investor to assess risks and returns in making investment decisions. However, the SEC emphasizes on the need for investors to be careful and prudent in analyzing information and risks associated with the investment for their mutual benefit.

To ensure that issuing companies disclose adequate information on timely basis to investors in making investment decisions, the SEC in the year under review, worked on a draft regulation on Disclosure of Information by issuers of securities. These regulations are aimed at ensuring that important information such as the financial condition and performance of issuing companies are disclosed in the application for approval and prospectus.

The main goals of the full disclosure regulation are to:

- Provide investors with material information.
- Foster investor confidence.
- Contribute to the maintenance of fair and orderly markets.
- Inhibit fraud in the public offering and trading of securities.

Issuing companies will be required to submit quarterly and annual financial statements to the Commission as well as disclose material information that may affect the companies' operations.

To protect investors against the misuse of investors' assets by securities companies, the SEC's regulations on compliance requires, among others, that securities companies segregate their own assets and accounts from those of their clients and must not make profit out of clients assets.

The Commission during the year under review also endorsed the approval given by the Ghana Stock Exchange on the following offer documents, which was forwarded to the Commission for review.

- 1. Home Finance Company's Prospectus Supplement for £1,200,000, 6%, Housbonds (Series F)
- 2. Home Finance Company's Prospectus Supplement for US\$3,000,000, 8%, Housbonds (Series G)

## STOCK MARKET REVIEW (November 1990- December 2001)

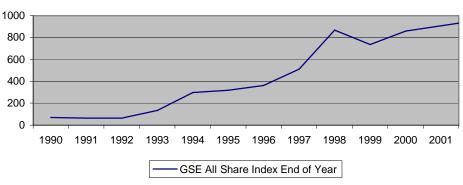

Below is a summary of the performance of Ghana Stock Market from November 1990 to December 2001. Highlights are on the Market Performance, Turnover, Market Capitalization, the Bond Market and the Capital Raised on the market.

Years	Volume Traded	Value Traded	No. of Listed	Market	GSE All-	No. of Listed

TOTALS	579.33	571,441.36				

#### MARKET SUMMARY

#### MARKET PERFORMANCE

The GSE All- Share Index increased from 70.25 points in November 1990 to 955.95 points by the end of December 2001. The index reached an all-time high of 1201.19 on May 6 1998. The market recorded the highest gain of 124% in 1994 followed by 69.69% in 1998.

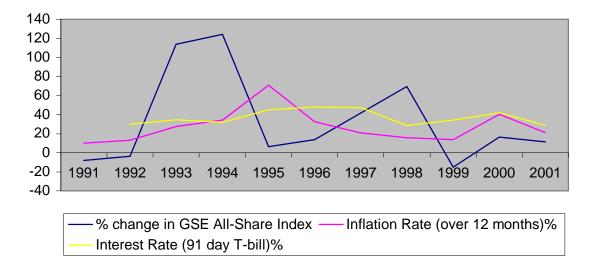

GSE All Share Index End of Year

<sup>18</sup> 

The annual % change in the GSE All-Share Index as against the year end inflation rate over the past 11 years and interest rates of the 91 day T-bill is as indicated in the graph below (Figures are as at year end).

	1991	1992	1993	1994	1995	1996	1997	1998	1999	2000	2001
% Change in GSE All-	-7.95	-3.63	113.74	124.34	6.33	13.82	41.85	69.69	-15.22	16.55	11.42
Share Index											
Inflation Rate (Year	10.26	13.3	27.7	342	70.8	32.7	20.8	15.7	13.8	40.5	21.3
End)%											
Interest Rate (91 day		30.1	34.78	31.85	45.06	47.93	47.53	28.67	34.18	41.99	28.94
T-bill)%											

The market on the average outperformed the inflation and interest rate indicators between mid 1992 and the 3<sup>rd</sup> quarter of 1994 after which there was a down turn until mid 1995. The market then took an upward movement until the third quarter of 1998 when there was a downward movement until mid 1999 with returns on the market falling to negative. The market picked up once again in mid 1999 until mid 2000 and has since been maintaining a steady movement.

### TURN OVER

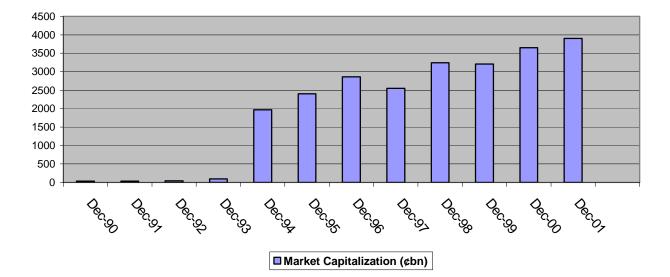

Total volume of shares traded on the stock market since 1990 to the end of December was 579.33 million shares

Total value of shares traded on the market since 1990 to the end of December was ¢571,441.36 Million.

### MARKET CAPITALIZATION

Market capitalization of companies on the stock exchange increased from ¢30.46 billion in 1990 to ¢3,904.03 billion at the end of December 2001.

As at the end of December 2001, Ashanti Goldfields Company Limited had the highest market capitalization value (¢2,129.59Billion) followed by the Standard Chartered Bank (¢360.72Billion) and the Ghana Commercial Bank (¢259.05Billion).

## Market Capitalization (¢bn)

There was very little activity on the bond market from 1990 to 1995, with just one Government bond listed on the exchange. This bond has since been retired. HFC in 1996 started issuing and listing its series bonds and has since then issued and listed one bond annually.

In September 2001, the first Government of Ghana Index Linked Bonds (GGILBs) was issued and secondary trading commenced on 28<sup>th</sup> December 2001. As at the end of December 2001, there were 22 bonds listed on the stock exchange with 17 being the GGILBs and 5 being the HFC Series Bonds B-F.

The current yields on the HFC Bonds ranges between 6.00% and 8.25% whilst that of the Ghana inflation Index Linked Bonds ranges between 5.0% and 6.0%.

## CAPITAL MARKET DEVELOPMENTS FOR 2001

### THE GGILB

The Ghanaian capital market experienced a further boost in the year 2001, with the introduction of the Government of Ghana Index Linked Bond (GGILB) issued by the Government of Ghana as a means of restructuring the country's domestic debts. The restructuring involved the conversion of the existing domestic debt stock from mainly short-term debt to medium-term instruments.

The first issue of the GGILB was in September 2001, and secondary trading on the Ghana Stock Exchange commenced on 28<sup>th</sup> December 2001.

The GGILB is a three –year inflation protecte4d Government of Ghana bond, which will be repaid by government in 2004. Interest payments on the debt instrument will be paid semiannually at a rate of (inflation + 6%). The principal and each interest payment will be adjusted in line with changes in the Consumer Price Index (CPI) to take account of accrued inflation after the GGILBs are issued.

The GGILB, which was launched on September 7 2001, represents part of the government's efforts to restructure the country's huge domestic debt. The domestic debt in Ghana has been recognized as one of the major contributing factors to a fiscal deficit that stood at 8.5% of Gross Domestic Product (GDP) at the end of 2000.

At maturity, the GGILB will be redeemed at the greater of their inflation –adjusted principal amount or the original face value principal amount of the GGILB. Since the interest and principal amounts are adjusted to reflect movements in inflation, bondholders' purchasing power is protected. This will also afford the government the opportunity to obtain instant relive in the form of lower interest costs as inflation falls.

The GGILBs are currently being traded over the counter, outside the floor of the Exchange by registered dealers known as Government securities Dealers (GSDs). Trading takes place

27

on every business day of the week. The GSDs are primary distributors who have registered with the Ghana Stock Exchange to deal on the secondary market and to furnish information on their quotes and transactions to the Exchange. There are currently twenty-one GSDs involved in trading of the GGILBs.

### SEC UNIT TRUSTS AND MUTUAL FUNDS REGULATIONS

Regulations needed for the regulation of unit trusts and mutual funds in the country were passed into Law in November 2001. This Legislation Instrument LI 1695 provides among other things guidelines for

- Issuing of scheme particulars
- Pricing valuation and dealings
- Investments of a scheme
- Distributions
- Accounts and Audits
- Reports to Investors
- Provisions relating to the manager and management of a scheme
- Administration of the scheme and the assets of a scheme
- Matters relating to investors and meetings of investors
- Powers of the Commission

The passing into Law of these regulations will allow the Commission to go ahead with the licensing of prospective operators in the industry. Unit Trusts and Mutual Funds will help boost small savings in the economy.

## NEW LISTINGS FOR 2001

The Ghana Stock Exchange in 2001 saw the listing of one corporate bond issue (the Home Finance Company Limited Series F Housbond) and additional listing applications for five companies. Below are details of the additional listings on the Ghana Stock Exchange.

Company	Type of listing	Number of shares issued
Accra Brewery Limited	Bonus Share Issue	83,148,888

## <u>A N D</u>

## ACCOUNTS

## 31<sup>ST</sup> DECEMBER 2001

JACOB ARTHUR AND PARTNERS (CHARTERED ACCOUNTANTS) P. O. BOX DS 1450 DANSOMAN ACCRA.

## SECURITIES AND EXCHANGE COMMISSION

## **REPORT OF THE AUDITORS**

## 31<sup>ST</sup> DECEMBER 2001

We have audited the financial statements on pages 30 to 36, which have been prepared under the accounting policies set out on page 34.

## **Respective Responsibilities of Directors and Auditors**

The financial statements are the responsibility of the Commission. Our responsibility is to express an independent opinion on these financial statements based on our audit.

## **Basis of Opinion**

We have conducted our audit in accordance with Auditing Standards. An audit includes examination, on a test basis, of evidence relevant to the amount and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the Commission in the preparation of the financial statements and of whether the accounting policies are appropriate to the Commissions circumstance, consistently applied and adequately disclosed.

We planned and performed the audit so as to obtain all the information and explanations which we require in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

### **Opinion**

In our opinion proper books of account have been kept by the Commission and the financial statements which are in agreement therewith comply with section 7 of the Securities Industries Law 1993, and give a true and fair view of the financial standing of the Commission as at 31<sup>st</sup> December 2001 and of its excess of expenditure over income for the year then ended.

## NOTES FORMING PART OF THE ACCOUNTS AS AT 31<sup>ST</sup> DECEMBER 2001

### 1. ACCOUNTING POLICIES

- a) **<u>GENERAL</u>**: The accounts have been prepared under the historical cost convention and do not take into consideration changing money values.
- b) **DEPRECIATION**: Depreciation is provided on a straight line basis at rates calculated to write off the cost of each fixed asset over its estimated useful economic life to the Commission.

The rates applied were:

Motor Vehicles	20%	
Furniture, Fixtures and Fittings	10%	
Office Equipment	15%	
Telephone Equipment		15%
Motor Bicycles	25%	

### 1c) FOREIGN CURRENCIES

Transactions denominated in Foreign Currencies are translated into cedis and recorded at the rate of exchange ruling at the date of the transactions. Balances denominated in foreign currencies are translated into cedis at the rate of exchange ruling on the Balance Sheet date. All differences arising on translation are dealt with in the Income and Expenditure Account.
